

3 ACADEMIC PARTNERS & 3 INDUSTRIAL PARTNERS DEVELOP A KIT FOR

THE JOINME PROJECT IS COMING TO ITS END!

Since the beginning of the project, we worked hard to develop the following deliverables, now available on our website!

Result 1

A Training program on Entrepreneurship in the field of AI for Industry 5.0. It also includes a manual on organising international seminars.

Result 2

A Workbook for teachers and professionals who will benefit from the state-of-the-art analysis on the current and coming challenges of Industry 5.0 and on good practices on EU level to teach and train students using actual case-studies.

Result 3

An Online platform that will provide a full access to the developed materials and establish a virtual environment for learning/training entrepreneurial skills in developing AI innovative products for Industry 4.0/5.0.

The platform here: <https://joinme-genie.erasmusplus.website/>

What's next?

With our results almost finalized, we are looking forward to translating the JoinMe Online Platform in Dutch, Greek, Lithuanian, French and Ukranian, making our results further accessible to learners in Europe!

Follow us for more updates on the JoinMe website: <https://joinme.erasmusplus.website/>
